Faridabad, Haryana, 121003, India

Detail-oriented Python and .NET developer with a strong coding background, achieving 1-star at CodeChef and solving 400+ coding problems. Proficient in Python, ASP.NET, JavaScript, Django, Power BI, and other technologies, with strong expertise in Data Analysis. Passionate about continuous learning and team success. Earned a B.Tech in Computer Science with a 9.0 CGPA and secured third place in the Dexterix 3.0 Hackathon.

Educational Qualifications

- Bachelor of Technology in Computer Science | Galgotias University, Greater Noida CGPA: 9.0 | (2020 - 2024)
- Higher Secondary School Certificate | Panchsheel Public School, New Delhi Percentage: 86 | (2019 - 2020)
- Secondary School Certificate | Panchsheel Public School, New Delhi Percentage: 85 | (2017 - 2018)

Professional Experience

Software Developer | Binary Semantics Limited (Gurugram, Haryana)

November 2024- Present

- Expanded a Python mapping system using FuzzyWuzzy ML Library, from one segment(car) to all four segments.
- Contributed to Database Migration from SQL Server to MySQL & .NET ASP to .NET Core system migration.

Python Developer Intern | Mashrise (Noida, Uttar Pradesh)

October 2023- January 2024

- Revamped frontend application and upgraded PHP from version 5 to 8, Establishing connections using Adminer.
- Oversaw update process for migrating Linux-based Python project from version 2.7 to 3.1 employing Putty tools.

Data Scientist Intern | Celebal technology (Virtual, Noida)

May 2023- July 2023

- Getting Familiar with different domains of data Science, Including machine learning, deep learning.
- Developed proficiency in web scraping techniques by extracting Flipkart reviews and stored in database using Python.
- Work on different python visualization tools and libraries to analyze data, NumPy, Pandas, Matplotlib..

Projects Portfolio

Ticket Management Application || ASP.Net MVC, SQL Server, [Project Link](#), [Linkedin Post](#)

- This project significantly strengthened my understanding of CRUD operations, database management, and front-end development. I also explored MVC filters such as Exception Filters, Authorization Attribute Filters, and more, which enhanced the robustness of the application.

Sales Insights-Hardware Goods || PowerBI, SQL [Dashboard Link](#), [Project Link](#)

- Developed an interactive Power BI dashboard to analyze sales trends, optimized for desktop and mobile views.
- Leveraged data from multiple source, ensured data quality through cleaning and processing to inform strategic decisions.
- Resulted in actionable insights identifying key trends and growth opportunities, projecting 7% revenue growth potential

Salary Prediction of Employee using Linear Regression || Python, Machine Learning [Project Link](#)

- Developed a salary prediction model to estimate an employee's salary based on their years of experience.
- The goal of the project was to build a model that could predictive salary based on user defined experience.

Image Upload web Application || Python, Django, HTML, CSS, Bootstrap [Project Link](#)

- Developed a Django web application enabling users to securely upload images alongside their information.
- Implement robust storage and retrieval mechanisms, ensure image security. Display images with corresponding usernames.

Flipkart Web Scraping Application || Python, Flask, Beautiful Soup, HTML, CSS

- Developed a web application to scrape data from Flipkart. It includes details such as name, and their review.

CRM user Interface with Database || HTML, CSS, JavaScript & PHP

- Created an interface that adjusts question visibility based on user responses, (hiding, disabling, and requiring inputs).

Skills

Python, Django, ASP.NET MVC, Power BI, PHP, Linux, HTML, CSS, JavaScript, SQL, MongoDB, Git&Github, Pandas, NumPy, Matplotlib, Machine learning, OOPs, Statistics, Communication, Team Player, Leadership, Presentation skills, Event Management, Teaching, Flexibility

Certification and Publishing

- Programming Essential in Python | Cisco Networking Academy | [Certificate](#)
- Programming Fundamentals using Python | Infosys | [Certificate](#)
- Database Design and Programming with SQL | Oracle Academy | [Certificate](#)
- Profound Method for Toxic Text Classification | 2023 IEEE(TEMSMET) | [Research Paper](#)
- MNIST Handwritten Digit's Recognition | IJSRET | [Research Paper](#)

Achievements and Awards

- Secure 3rd Position - Dexterix 3.0 Hackathon
- Completed 3rd Milestone - Google Cloud Facilitator Program
- Peer Reviewer (IJCDs/University of Bahrain)
- Senior Volunteer/NSS & Student Placement Coordinator (Galgotias University)
